

Using Apex Engineering's RYDALL DD

As a 'Heavy Duty' Surface Degreaser

Following are **Apex's** recommendations:

- 1.) It should be applied with a Heated Pressure Washer, preferably heated to 60 Deg. C. (140 F.).
- 2.) If the injection rate is adjustable, 5-15% concentrated solution is best to start with.
- 3.) Spray liberally until all deposits are removed.
